

Another Industry First!

Pioneer™ Series **Super-LED® Floodlight**

Pioneer Floodlight puts all the performance and reliability of LED technology into a 75 watt LED package, producing 6000 Lumens.

FEATURES:

- Patent Pending.
- Solid-State electronics and lamp source that are proven reliable and durable, eliminating the high cost of lamp or ballast replacements.
- No high current in rush when activated.
- Draws 6 amps peak at 12.8 vdc.
- Pioneer LED flood lights are instant On/Off eliminating the high current warm up time associated with other light sources currently available.
- Pioneer Series LED Floodlights can be flashed for added warning in the "Clearing Right of Way Mode". External flasher required.
- Rugged all aluminum construction, powder coated finish.
- Floodlight housing is adjustable up to 20 degrees downward angle maximizing light effectiveness.
- Mounting brackets are designed to be contoured to fit mounting surface radiuses.
- HDP® Heavy-Duty Professional 5 year warranty.
- Low operating temperature.
- Pioneer LED flood lights do not emit ultra violet light that attracts insects during night time operation, like other lights sources do.
