## Dodge Charger Lighting Package

### WeCan™ Lightbars

WeCan Electronic Control Module (ECM), communicates all lightbar operating functions via small 2c 20 gauge cable. All functions are programmed using simple Window® based "pick & click, or drag screens.

**Liberty™ SW8**, Independent control of each lighthouse.

**Edge® Ultra Freedom™ FW8/FV8**, Independent control of each lighthouse.

**Edge Ultra Freedom II™ FC8**, Allows individual control of upper and lower levels of each lighthouse.

**Justice® JV4/JV8/JV2**, Control independent flash pattern, phase control of each individual lighthouse, optional flashing take-downs and alley lights and built-in Traffic Advisor™.

### Inner Edge® Lightbars

#### Front Facing:

**I07UF8, I07UF4P**, Super bright Super-LED® modules mounted in a rugged housing that fits snugly against the upper front windshield. These full featured interior lightbars are virtually undetectable when not in operation. The Scan-Lock™ feature provides multi-flash patterns.

#### Rear Facing:

**I07LR8L**, Eight Linear-LED® warning lights or Traffic Advisor™. Also available as a six lamp version, or eight lamp unit with six lamp Traffic Advisor with two end flashers.

### Sirens

**CCSRN2**, Control head and amplifier/relay module, designed for 1 or 2-wire Traffic Advisors.

**CCSRNTA2**, Similar to CCSRN2 except for interfacing with Traffic Advisors which are supplied with a full harness.

**295SLSA6**, Full function siren with Scan-Lock siren tones and a nine switch control for lighting functions. Four position slide switch, six push-on/push-off switches. Self-contained unit for under dash or console mounting.

### Siren Speaker

**SA315P**, Narrow, high performance, multi-port 100 watt speaker in a nylon composite housing.

### Hide-A-Way Strobes

**HA239C/HA238\***, "HIDE-A-WAY" remote strobe assemblies. Smallest flange or grommet style strobe lamp assembly available. Requires strobe power supply, purchased separately.

### VERTEX™ Super-LED® Lighthouse

**VTX609\***, Single self-contained lighthouse with 25 Scan-Lock flash patterns, including steady-burn, with 9' cable. Only 7/8" in height, this small hemispheric LED lighthouse is perfect for most applications where size and intensity are critically important. Self-contained unit using an in-line combination lamp driver/flasher.

### Mirror Beams™

**MBPM**, Integral Linear-LED mirror mounted 500 Series lighthouses put warning at mid-level where you need it most.

### Inner-Beams®

**IBDC06\*\***, 25 Scan-Lock flash patterns and a 4 wire pigtail. Sold in pairs. Red, blue and/or amber. For white Super-LEDs contact Factory for pricing.

### TIR3™/LIN3™ Lighthouses

**RS\*03ZCR (TIR3), RS\*02ZCR (LIN3)** Super-LED surface mount modules are effective for a variety of applications and include black flange. Moisture resistant with 25 Scan-Lock flash patterns that allow alternating/simultaneous flashing of up to eight lighthouses and includes steady-burn and synchronize wire.

### TIR6™/LIN6™ Lighthouses

**50\*03Z\*R, (TIR6) 50\*02Z\*R, (LIN6)** Super-LED's are encapsulated and have a self-contained flasher with 25 Scan-Lock flash patterns with steady-burn (single color models only) and synchronization feature. Flush mount requires optional trim ring.

### LIN4™ Series Lighthouses

**SS\*02ZCR**, Surface mount, color Super-LED with clear lens, 20 Scan-Lock flash patterns and synchronize feature. Optional cast aluminum mounting flange.

### LINZ6™ Series Linear Lighthouses

**LINZ6\***, Surface mount, color Super-LED with clear outer lens, includes black flange. 69 Scan-Lock flash patterns including steady-burn and synchronize feature.

### Interface Module

**PEIMDC07**, This module provides conditioned signals to and from the Police Equipment Interface Module (PEIM) found on all Dodge Charger police vehicles. Including flashing headlights and taillights. For further information, refer to the Police Package Owner's Manual supplied with the vehicle.

Replace \* symbol in the model number with LED/strobe color desired: A=Amber, C=White, R=Red, B=Blue.
