

Field Series™ Brow Light

NEW PRODUCT • MARKET ADVISORY

MA:0093 • 09/2024

Introducing the all-new **Field Series Brow Light**—the only brow light that fully illuminates your entire field of vision using our **cutting-edge dynamic beam technology**. This advanced lighting solution provides unmatched control and maximum visibility with the simple flip of a switch.

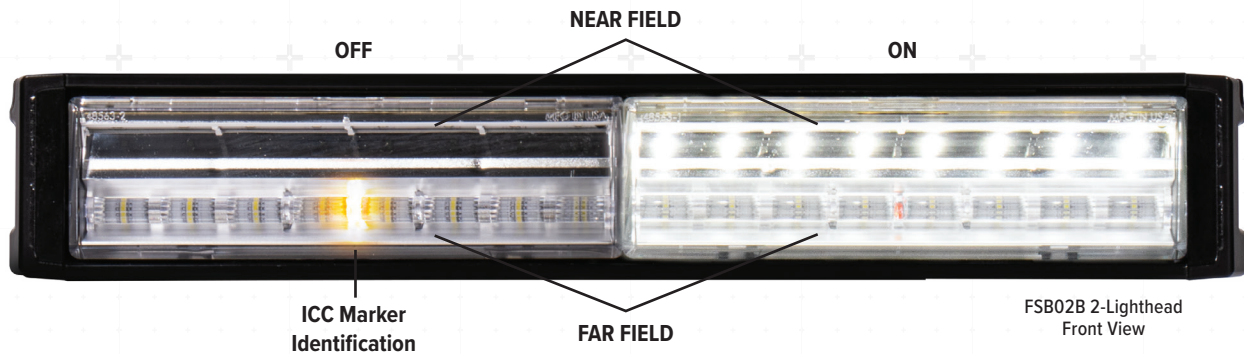

FIELD

SERIES™

Features

- **Dynamic Beam Technology:** Adjust light distribution between Near, Far, or a combination of both, ensuring the right lighting for any situation.
- **Variable Power Distribution:** Fine-tune how each optic path is powered to meet the specific needs of the moment.
- **Multiple Turn-On Styles:** Choose from instant or gradual activation to suit any scenario.
- **Marker Identification:** Each brow light comes complete with marker lights that can display Amber or Red for additional warning and safety.
- **Multiple Configurations Available:** Tailor the Field Series to fit any apparatus, with removable lighthead modules designed for field serviceability.
- **Serviceability:** Lighthead modules are easily replaced within the overall structure of the brow light meaning there's no need to repurchase the entire unit just to replace a single module.
