

5G Series Super-LED® Lighthoods

PRODUCT UPDATE • MARKET ADVISORY

MA:0099 • 09/2024

We're pleased to announce exciting new updates to our **5G Series Super-LED® lighthoods**. These enhancements ensure that our 5G Series lighthoods continue to set the standard for safety, durability, and performance in the commercial vehicle market.

Scan the QR code or click [HERE](#) for more details including models, options and specs!

Features

- Sync Wire Integration:** Synchronizing warning lights with each other is now easier than ever with an integrated sync wire, eliminating the need for additional equipment to synchronize warning patterns.
- Expanded Color Options:** The new 5G Series lighthoods are now available in a variety of horizontal split-color options, offering greater flexibility in color combinations to match the operational needs of your commercial fleet.
- Updated Look:** While maintaining the industry-standard form factor and mounting options, 5G Series lighthoods now sport an updated, modern look, giving your fleet a fresh and professional appearance. New 5G models have the same footprint as original models and are compatible with the same flanges and mounting kits.
