

SpitFire® ION® Mounting Kit

NEW PRODUCT • MARKET ADVISORY

MA:0102 • 10/2024

Whelen is excited to announce the release of the **SpitFire ION Housing-Only Mounting Kit**, designed to provide you with increased flexibility and control over your emergency lighting setups. The Kit includes everything you need to create a custom warning solution, featuring the SpitFire ION housing for a customer-supplied ION lighthead and secure mounting options with included brackets and suction cups. The new housing-only Kit allows for direct wiring to a Core® control system, enabling users to select their preferred ION lighthead, including DUO™ or TRIO™ models.

Unlike the current SpitFire ION, which is limited to SOLO™ or split configurations and requires a cigar cord for power, this Kit lets you build a tailored lighting solution to fit your needs.

Please reach out to your Whelen sales representative with any questions.
