

Motorcycle Box

PRODUCT UPDATE • MARKET ADVISORY

MA:0105 • 11/2024

Our new **Motorcycle Box** is a one-box solution for outfitting Harley-Davidson® motorcycles tailored specifically for law enforcement. This updated version of our current Motorcycle Box brings enhanced flexibility and features designed to meet the needs of today's agencies.

Now supporting **SOLO™** and **DUO™ M4** lighthead and optional **Core®** control systems, the new Motorcycle Box offers even more customization options. Unlike the previous model, which required a built-in flasher, this new version allows you to purchase the Box “blank,” giving you the freedom to integrate your own control system.

Additionally, lighthead are sold separately, enabling you to build a configuration that fits your exact needs without being limited by specific models. This à la carte approach ensures that you can create a truly tailored solution for your motorcycle fleet.

Stay safe with this versatile and innovative solution, designed to help you respond quickly and effectively.

Please contact your Whelen sales representative with any questions.
