

WeCanX[®] Junction Box

NEW PRODUCT • MARKET ADVISORY

MA:0123 • 12/2024

The **WeCanX Junction Box** is a new solution designed to streamline the installation process and enhance the functionality of our Core[®] Control Systems.

The WeCanX Junction Box provides **12 dedicated WeCanX data connection points**, allowing up to **11 WeCanX devices** to seamlessly connect to a Core Control System.

Benefits

Simplified Installations: With multiple connection points, the Junction Box minimizes or eliminates the need for butt-splices in WeCanX data connections, resulting in a cleaner and more reliable installation.

Enhanced Flexibility: Supports a wide range of WeCanX devices, ensuring compatibility and scalability for your system.

Improved Efficiency: Reduces installation time and potential points of failure, ensuring long-lasting performance.

This innovative product is ideal for emergency and commercial vehicle applications where clean and professional installations are a priority.

Please contact your Whelen sales representative with any questions.
