

Core[®] Cabin Speaker

NEW PRODUCT • MARKET ADVISORY

MA:0088 • 12/2024

Whelen now offers a **Core Cabin Speaker** for previewing Digital Voice Messages (DVMs). The speaker is compatible with Core and Core-S[®] control systems and lets users select and preview pre-recorded DVMs from the emergency vehicle before broadcasting, ensuring clear and accurate communication during critical situations. When paired with the Whelen Cloud Platform[®], the Core Cabin Speaker supports Responder-to-Responder™ Alerts—providing real-time warnings of potential intersection collisions, significantly improving the safety of emergency responders.

Enhance your emergency response capabilities with the new Core Cabin Speaker.

Please contact your Whelen sales representative with any questions.
