2G Series Super-LED® Lightheads

We're pleased to announce exciting new updates to our **2G Series Super-LED®** lightheads. These enhancements ensure that our 2G Series lightheads continue to set the standard for safety, durability, and performance in the commercial vehicle market.

Features

Sync Wire Integration: Synchronizing warning lights with each other is now easier than ever with an integrated sync wire, eliminating the need for additional equipment to synchronize warning patterns.

Expanded Color Options: The new 2G Series lightheads are now available in a variety of side-by-side color options, offering greater flexibility in color combinations to match the operational needs of your commercial fleet.

Updated Look: While maintaining the industry-standard form factor and mounting options, 2G Series lightheads now sport an updated, modern look, giving your fleet a fresh and professional appearance.

Effortless Upgrade: New 2G models have the same footprint as original models and are compatible with the same flanges and mounting kits.
